The main and usual duties of this job are:

- Exercising influential leadership to ensure the success of the projects entrusted to you;
- Meeting with customers, gathering, analysing and understanding their needs and ensuring that they understand and are involved in the next steps;
- Develop and implement a detailed project plan (human resources, budget and time schedule) to deliver the project to completion;
- Determine the resources required by the teams, with the various managers (availability, skills) and ensure knowledge transfer;
- Co-ordinate internal and external staff for project implementation
- Constantly monitoring the progress of work to ensure that the plan is being adhered to, using appropriate systems and indicators (Key Performance Indicators)
- Implementing and managing the changes required to achieve the project outcomes in order to meet the objectives on time and within budget
- Analyse project risks and propose solutions to problems encountered
- Prepare regular reports for presentation to the team and management, and carry out proactive follow-ups;
- Manage communications with management, the team, stakeholders and suppliers
- Working with the change management manager to ensure that change management actions are in step with the production of project management deliverables;
- Create and archive all project documentation
- Complete project closure activities
- Ensuring and/or defining the quality improvement of systems and processes by implementing best practices and/or appropriate techniques;

Education :

University degree in a relevant discipline.

PMP or MBA certification or Master's degree in project management is an asset.

Skills :

- More than 15 years relevant experience in major project management.
- Previous experience in leading transformational projects with significant change management scope.
