The Data Platform Group, part of the Ubisoft Data Office with Ubisoft IT, develops and manages a variety of data services and tools for storing and analyzing Ubisoft data. Known as a company-wide reference and trusted source, our products provide: real-time visibility on how Ubisoft titles are played and an understanding of the habits and preferences of the people playing them.

You will lead the Core Infrastructure team, leveraging your deep technical knowledge to scale, optimize and operate the transversal infrastructure of the group. With your team, you will work on diverse topics that are core for multiple teams. From key DevOps tools and practices, cloud, security to core infrastructure, you will own the foundations of our tools.

Responsibilities

- Own the global technical vision and drive the technical decisions of the core infrastructure.
 - Contribute to the team and be a hands-on problem-solver to face challenges.
 - Ensure that technical decisions align with our quality, performance, scalability, reliability, and security goals while promoting engineering excellence.
 - Mentor developers on the team at a technical level while also managing their evolution.
 - Empower team members to navigate ambiguity with confidence, fostering a shared sense of responsibility and ownership
 - Work in close collaboration with other teams to enable them, and contribute to the group technical alignment.
 - Promote best practices within the DevOps/Infrastructure community.
 - Monitor technological advancements and trends to help develop our best practices.
-
- Advanced experience as a technical lead or senior infrastructure developer, with a strong background in DevOps, Cloud, and Security.
 - Expertise in infrastructure automation tools like Terraform, Ansible, and CloudFormation.
 - Extensive experience with cloud platforms, particularly AWS and/or Azure.
 - Proficient in Kubernetes and knowledgeable about GitOps CD tools, especially ArgoCD.
 - Solid understanding of network and security concepts, with the ability to balance big-picture thinking and attention to detail.
 - Strong collaboration and communication skills for effective teamwork and discussions with colleagues.

Just a heads up: If you require a work permit, your eligibility may depend on your education and years of relevant work experience, as required by the government.

Skills and competencies show up in different forms and can be based on different experiences, that's why we strongly encourage you to apply even though you may not have all the requirements listed above.

At Ubisoft, we embrace diversity in all its forms. We're committed to fostering an inclusive and respectful work environment for all. We know the importance of providing a pleasant interview experience, therefore if you need any accommodation, please let us know if there is anything we can do to facilitate the interview process.
