As a Camera Specialist (Gameplay) at Ubi MTL, you'll be responsible for developing and ensuring the quality of in-game cameras, which will bring out the important elements of the game during playable sequences.

**What you'll do**

- In collaboration with the creative and level design directors, develop the style and role of the cameras in the overall game experience;
- Be familiar with the script to understand the emotions that should be conveyed to the player;
- With level designers, analyse the gameplays to assess the best shots and provide a better player experience;
- Work with programmers to assess the proper functioning of the cameras;
- Have the level design PM and/or creative director validate the work to ensure that it is in line with project guidelines;
- Whenever necessary, assist animators in animating the cameras for the cinematic scenes;
- Correct the camera bugs entered into the database by testers;
- Carry out all other related tasks.

**What you bring**

- At least 5 years' experience in video game level design and production, game design or other relevant experience (having worked on a AAA game is an asset)
- Have a good understanding of the 3Cs (Camera, Control, Character);
- Good knowledge of game engines and 3D software (3DS Max, Maya, Motion Builder...)
- Be able to solve problems related to camera tracking, action continuity and technical issues that may arise;
- Good artistic vision and a well-developed 3D spatial sense;
- Work as part of a team and collaborate with multidisciplinary teams;
- User-oriented, critical and analytical.

**What to send our way**

- Your CV highlighting your education, experience, and skills
- A portfolio of your best work (if applicable—attach images or send us a link to your personal website or online portfolio)
