The Ubisoft Data Office – Domain Enabling team is looking for a BI Developer to join their ranks. This role calls for you to use your expertise in building data pipelines with Python and SQL, to develop innovative solutions for the Corporate Services Data Domain. You'll have the opportunity to be part of an international team distributed in Bucharest, Paris and Montréal and work with cutting-edge technologies.

Mission

- Take part in all BI project phases (analysis, design, development and tests).
 - Understand the needs of internal clients and translate these needs into technical specifications
 - Design and build database framework for the DW, ETL processing, multidimensional databases and reports.
 - Build complex SQL queries and scripts
 - Define standards and train the team on BI technologies.
 - Draft technical documents, user manuals and installation guides.
 - Contribute to the continued enhancement of the products, code and documents.
 - Communicate and collaborate with the business partners; ability to present technical artefacts to a non-technical audience
-
- Strong experience delivering scalable, maintainable, and reusable code components to build data pipelines using Python and SQL, ideally in a Cloud environment (Databricks, Snowflake, etc.)
 - In-depth experience designing and developing Data Warehouse solutions
 - Proficient with data pipeline orchestration tools such as Airflow
 - Familiar with DataOps and governance practices including CI/CD, monitoring and observability, unit testing, etc.
 - Experienced with reporting and analytics tools such as Power BI
 - Skilled in analysis, synthesis, problem-solving, initiative, attention to detail, and adaptability to change

We embrace a hybrid work model helping you stay connected with your team and aligned with business priorities, while giving you the opportunity to maintain your work-life balance. Note, that some roles are fully office-based and are not eligible for hybrid work.

Just a heads up: If you require a work permit, your eligibility may depend on your education and years of relevant work experience, as required by the government.

Skills and competencies show up in different forms and can be based on different experiences, that is why we strongly encourage you to apply even though you may not have all the requirements listed above.

At Ubisoft, we embrace diversity in all its forms. We're committed to fostering an inclusive and respectful work environment for all. We know the importance of providing a pleasant interview experience, therefore if you need any accommodation, please let us know if there is anything we can do to facilitate the interview process.
