As a Game Designer, you will be responsible for designing and developing unique social and ranking features that enrich the player experience. You'll ensure these features are well-balanced, engaging, and aligned with the game's overall vision. This role requires a deep understanding of game mechanics, player behavior, and a strong ability to collaborate effectively within a multidisciplinary team.

What you'll do:

- Design and develop social and ranking features tailored for the mobile experience, inspired by *Rainbow Six Siege*.
- Ensure that these features are balanced, intuitive, and contribute to a fair and engaging gameplay experience.
- Collaborate closely with art, technical, and design teams to bring social features to life and ensure seamless integration into the game.
- Analyze player feedback and gameplay data to refine and improve existing features.
- Create and maintain clear, detailed documentation, including design specifications and feature intents.
- Stay up to date with industry trends and competitive titles to ensure our social features remain innovative and relevant.

What you'll bring:

- At least 3 years of experience in game design, ideally with a focus on system design.
- A strong understanding of game mechanics, balancing, and player psychology.
- Proficiency with game design tools, particularly Unity (preferred).
- A creative and strategic mindset to adapt *Rainbow Six Siege* Operators for the mobile experience.
- Excellent verbal and written communication skills.
- A strong ability to work collaboratively within a cross-functional team environment.

What to send our way

- Your CV highlighting your education, experience, and skills
- Samples of your work (attach files or send us a link to your demo reel or online portfolio)
