Mobile Release Manager

Montreal - Full-time - 744000107510968

Apply Now:

As a **Mobile Release Manager** at Ubisoft Montreal, you will oversee the planning, submission, and lifecycle of mobile game releases across multiple studios worldwide. You will act as the central point of contact for release operations, ensuring visibility, alignment, and quality across teams while meeting mobile store requirements and Ubisoft standards. As a Mobile Release Manager, you will play a key role in enabling smooth launches and long-term live operations for our mobile portfolio.

What you'll do

- Act as the **primary release point of contact** for multiple mobile studios and partners across different time zones.
- Build, own, and communicate **release retroplanning roadmaps**, accounting for store constraints, internal dependencies, and certification timelines.
- Coordinate **release-related communication** with production, development, quality assurance, business teams, and store representatives.
- Prepare and manage **submissions to mobile stores**, including builds, metadata, and required assets, while tracking reviews and certifications.
- Monitor delivery progress, **identify risks early**, and drive solutions to prevent delays or blockers.
- Support **live operations and post-launch updates**, including emergency hotfixes and critical communications when needed.
- Ensure releases meet **Ubisoft quality standards**, mobile store policies, and compliance requirements.
- Maintain clear visibility on planning, status, and constraints to support informed decision-making across stakeholders.

What you bring to the team

- Strong **release management and organizational skills** with the ability to handle multiple projects simultaneously.
- Hands-on experience with **App Store Connect** and **Google Play Console**, including full app and feature setup.
- Solid **attention to detail** and a strong sense of ownership in high-stakes release environments.
- **Technical curiosity and troubleshooting skills** when working with store tools, metadata, and backend features.
- Ability to **communicate clearly and collaborate** with diverse, cross-functional teams worldwide.
- Proactive mindset with the ability to **process complex information**, prioritize effectively, and

drive solutions.

You'll be part of a team that values innovation, autonomy, and impact. Your work will directly shape the reliability and efficiency of Ubisoft's global infrastructure.

Just a heads up: If you require a work permit, your eligibility may depend on your education and years of relevant work experience, as required by the government.

Skills and competencies show up in different forms and can be based on different experiences, that's why we strongly encourage you to apply even though you may not have all the requirements listed above.

At Ubisoft, you can come as you are. We embrace diversity in all its forms. We're committed to fostering a work environment that is inclusive and respectful of all differences.
