As a **System Administrator** at Ubisoft **Montreal**, you will be part of the Distribution team within the IT Games and Studios group. You will contribute to the operation, evolution, and automation of the infrastructure and services that support game production on internal and cloud-based platforms. This System Administrator role has a direct impact on the reliability, performance, and availability of the environments used by production teams.

## What you'll do

- Ensure the **operational stability** of infrastructure and services in production environments
- Work closely with **production teams** to understand their needs and propose appropriate technical solutions
- Design and maintain **automation scripts** to reduce manual work and improve system reliability
- Analyze **codebases and automated integration and deployment pipelines** to diagnose and resolve complex incidents
- Implement and evolve **monitoring and system health tracking** solutions
- Promote **operations automation** and continuous improvement of system management practices
- Take part in a shared **on-call support rotation** for critical services
- Continuously improve **system performance, resilience, and availability**

## What you bring to the team

- Hands-on experience with **Windows and Linux environments**, including service and application hosting
- Knowledge of **automated integration and deployment processes**, including tools such as GitLab
- Strong skills in **programming and scripting**, for example using Python, Shell, PowerShell, or Ruby
- Experience with **containerization and service orchestration technologies**, such as Kubernetes and Docker
- Knowledge of **automated infrastructure and configuration management** tools
- Familiarity with **cloud platforms**, such as Microsoft Azure or Amazon Web Services
- Ability to **solve complex technical problems** using a structured and methodical approach

- Strong communication skills to **clearly explain technical concepts** to both technical and non-technical audiences

Just a heads up: If you require a work permit, your eligibility may depend on your education and years of relevant work experience, as required by the government.

Skills and competencies show up in different forms and can be based on different experiences, that is why we strongly encourage you to apply even though you may not have all the requirements listed above.

At Ubisoft, we embrace diversity in all its forms. We're committed to fostering an inclusive and respectful work environment for all. We know the importance of providing a pleasant interview experience, therefore if you need any accommodation, please let us know if there is anything we can do to facilitate the interview process.
