As a Principal Technical Designer, you'll create and implement complex, technical, and systemic design elements in a game.

You're essentially a game or level designer recognized for your technical skills on a design or multidisciplinary production team.

A technical reference within your team, you'll help, support, and advise your peers as needed. You may also be called upon to become the project's technical expert on a specific element of the game.

What you'll do

- Create and implement the **technical elements** of a game feature in with technical directors, programmers, and colleagues from other job families.
 - Act as a **technical expert** on a specific topic + oversee tools and documentation, provide technical assistance, and define and promote best practices.
 - Participate in data **optimization and validation**, taking budget into account and ensuring that technical standards are respected.
 - Participate in the **advanced debugging** of data throughout production.
 - Provide **regular feedback** to design directors (e.g. suggestions for improving tools and methods, etc.).
 - Help **test new features and tools** before their launch.
 - Perform **production tasks** within the game and level design team + prototype gameplay features.
 - **Design and implement** more complex, abstract, technically challenging, or game-wide design elements in the game.
-
- 8 years of experience in game or level design (with a technical focus)
 - The ability to understand and communicate in technical language & clearly express your ideas (both on paper and in person)
 - Flexibility + solid analysis and problem-solving skills
 - A user-oriented spirit
 - Curiosity: you have a passion for understanding how things work
 - Experience with various game engines and platforms (nice to have)
 - Experience with a range of 2D/3D design software programs (nice to have)
 - Experience in programming/scripting (nice to have)

What to send our way

- Your CV highlighting your education, experience, and skills
- Samples of your work (attach files or send us a link to your demo reel or online portfolio).
