

Cloud Developer

Montreal - Full-time - 744000025795851

Apply Now: <https://jobs.smartrecruiters.com/Ubisoft2/744000025795851-cloud-developer?oga=true>

Ubisoft IT is looking for a Cloud Developer to join the Engineering and Platform team. This team is responsible for Ubisoft's IT platform. This platform is a one-stop destination, offering teams access to services for leveraging cloud and infrastructure. They rely on modern infrastructure, leveraging Kubernetes at its core to host platform services in multiple variations.

As a cloud developer joining this team, and working on this platform, you will primarily be responsible for building features and operating our Database as a Service offering.

Responsibilities

- Design and develop micro-services, large-scale web services, and APIs for Platform as a Service (PaaS);
 - Produce clean, efficient code based on a straightforward development process aiming at reusable, optimal, maintainable solutions as per best practices and modern architecture;
 - Collaborate with teammates to contribute to architecture requirements and design;
 - Create technical documentation with an emphasis on quality-driven deliverables;
 - Work alongside the operations team to ensure the support of developed applications in all environments;
 - Identify and troubleshoot system deficiencies while recommending solutions;
 - Enhance the build and development tooling and improve CI/CD pipelines, code reviews and testing;
 - Stay up to date on new technologies while fostering knowledge-sharing.
-
- Previous experience in developing large-scale software;
 - Strong experience with orchestration and containerized technologies such as Docker and Kubernetes;
 - Proficiency in developing and integrating RESTful APIs, and gRPC;
 - Good experience working on CI/CD pipelines with tools such as GitLab CI, ArgoCD, and Spinnaker;
 - Good experience working with Infrastructure as code and automation tools such as Terraform and Ansible;
 - Experience in C family programming languages such as Golang, C++, C#, and C.

Just a heads up: If you require a work permit, your eligibility may depend on your education and years of relevant work experience, as required by the government.

Skills and competencies show up in different forms and can be based on different

experiences, that's why we strongly encourage you to apply even though you may not have all the requirements listed above.

At Ubisoft, we embrace diversity in all its forms. We're committed to fostering an inclusive and respectful work environment for all. We know the importance of providing a pleasant interview experience, therefore if you need any accommodation, please let us know if there is anything we can do to facilitate the interview process.
