

Be Inspired. Be Creative. Be NEXT.

Ubisoft Toronto NEXT is an annual competition designed to showcase the talent of video game development students in Ontario. Kick-start your career in the industry with a paid internship and learn from Ubisoft Toronto's top talent.

Compete in one of seven disciplines to win an internship:

- 3D Art (Modelling)
- Concept Art
- Technical Art
- Animation
- Game Design
- Level Design
- Programming

Eligibility

The competition is open to applicants who:

- Are legally entitled to work in Canada;
- Reside in Ontario;
- Are currently attending OR have graduated from an Ontario post-secondary school no earlier than Spring 2022;
- Have less than 2 years of professional experience in the game development industry;
- Are not a current or former employee of any Ubisoft studio;
- Complete the challenge individually. Team-based submissions will not be reviewed.

Ubisoft Toronto NEXT: Animation Challenge

The theme of this year's challenge is '**Flip.**' Participants must create an animation with a minimum of 2 characters with at least 1 character of biped form. The purpose of this theme is to display the participant's understanding of both body mechanics and acting through body language.

Requirements:

- Must be 3D CG animation - Participants may use any 3D software package.
- Animation must be a minimum of 8 seconds long.
- Framerate must be 30 fps.
- Animation should be realistic.
- Your submission must be Keyframed 3D animation. Motion Capture is not allowed.
- We want to see the full body of at least 1 of the characters.
- Keep the camera in a static position that best presents your animation and helps tell the story visually. We are evaluating animation, not camera work.
- Participants may use any character rigs and assets they like.
- Do not use any overtly offensive content (this is not a place for crude or sexual humour - your entry, if selected, will represent yourself & Ubisoft publicly)
- Sets are not required. Feel free to create a simple set/environment or not use any at all. You will not be judged on this.
- Shots do not need to be fully rendered; we will only judge the animation.
- Audio is not required. Applicants are allowed to use sound effects to elevate their scene but should not rely on it. You will not be judged on this.
- Make sure to adhere to the theme and follow all submission requirements and instructions.

Thinking Points When Creating Your Scene:

- What is the story / theme of your scene?
- What is the mood or atmosphere of the scene?
- Who are these characters?
- What are they thinking throughout your animation?
- What is the initial emotional state of your characters and how does it change during the scene?
- Is the theme apparent in your scene?

Tips:

- Focus on Body Mechanics, Acting, Timing/Pacing, Dynamic Posing, and Staging etc.
- Analyze video references that are like the action you are going to create. Study them frame by frame.
- Think about your characters' thought process, changes in emotions and body language to help illustrate what they are feeling and show them reacting to their environment and/or situation.
- While props are optional, feel free to use them if they help communicate your animation.
- Focus on your animation! Spend your time polishing it rather than modelling, rigging, texturing, and lighting. The judges are focusing on animation quality rather than a beautifully lit scene with textured characters and environment.
- Be realistic about the time you have! A short, well-animated piece will demonstrate your animation skills much better than a longer animation which is not polished.
- If you can see the mistakes in your piece, we will too!
- Get feedback! Show your work and be open to change.
- Grappling with your animation problems is the best way to increase your animation skills.
